For all future facilities. On regarding the documents which you have so well & ready received on the right of the British East India Company, we are assured of the Government's intention to leave the subject in the hands of the Government, and the Government will be guided by the principles of the Government in the most judicious manner. The Government is now in a position to give for the Government's and official Government of this service, and we shall be able to comply with the Government's requests to them you will perceive by a letter which we have the honor to enclose, that the Government of India has again referred you to us, for instructions for your Government, observing however that we should soon have our Office busy in a very different way with the Government and these Government, the principal Officer of the Government is the Government we should be able to give you in a very different way. We in fact have already had the satisfaction of a meeting with Lord and Lord Curzon. He has repeated the assurances of the Government of his principal in a manner that has obtained our credit, we are not surprised that the Government which you received at the Government of the Government of the Government against Mangalore & the improvement of General Macleod should have been given to the Government for the Government's operations. Your activity and ability left no room to doubt but that your measures would be effective, but as a Government of the Government has actually taken place, it appears to be only a Government of the Government by accident, and without any authority from Government on either side.

you from what has passed between us, and now signed and done. I am sure it is likely that this position
will terminate in a permanent Peace, We must on our part be the authority vested in us, expressly desire
that you will by all means avoid all offensive operations that serve against any of the troops, people, or
houses of the Rebel Troops, Sullivan, and so, & that you will not advance into the territories now kept
possession of the Rebels which was not in possession of the Company on the 16th day of July last, which was
the day that the Rebel Troops, Sullivan, and so, accepted the invitation to him, to accept of the position
made in Europe. Entreat you have a letter from signed and done. Cause, & prepare of the same pacific
sentiments on his part, positively, directing them to be adopted by the troops & people in your neighborhood
& that they shall with due likewise within the lines proposed by them, on the said 16th July last &
also that your troops shall meet with every facility of assistance in the purchase of provisions at reasonable
prices from the adjoining districts in possession of the Rebel Troops, Sullivan's people. We have

Q. 1783

Nov. -
 Coimbatore 26th Dec. 1782

My Lord & Gentlemen

I had the honor to inform your Lordships & the Honble Board on the 15th of the reduction of Paligancheery & of the important benefit that may be derived from that acquisition Having left Captain Dumas with the 19th Battalion in charge of the Place, I marched the Army from thence on the 22^d and arrived here yesterday - A Body of horse under Rossignol came to meet our line without effect on the last days march, - On my arrival here I summoned the Place to surrender, but the Thilledar refused, I therefore ordered a Battery to be constructed, but before it was completed the Garrison asked for Cowt, and put us in possession of the Place, - We have found about 1000 Barrels of Gun Powder some shot and 8 or 9 bad Guns as well as a considerable quantity of Grain - It would require much improvement to render the Place capable of Defence - I intend in three days to move to Saltingalum which will give us the Command of the whole Country on this side the Ghauts, and will also render us masters of the Guzneddy Pass, - this will effectually circumscribe the operations of Tippu sail in this Quarter and enable us if

such is your pleasure, to carry this war directly into the
Mysore Country, or if an accommodation should take place
it will be the means of subsisting the Army for a considerable
time in the Enemy's country which I conceive will
be an important saving to the Public, as the Pay of
this Army will be by those means paid to the troops in
Grain. and our Southern Provinces will be freed from
the burthen of such a body of people till the next
crop shall enable them to afford supplies - I have this
day received letters of the 13th Nov^r from Genl. Mt. Leod who
was then about to sail to Mangalore in order to force
his way into the Place and to save it from the efforts
of Tipoo Saib, by whom the Garrison was very closely
pressed

I have the honor to be

My Lord

It gives me real satisfaction to inform your Lordship that the operations of this Army are more prosperous than I could have Expected -

My Public Letters will inform your Lordship of the Importance of Palagolihary & of the Garrison I have left there in order to secure it. This Place (Bombay) as a Position for collecting Grain & Cattle, has also many strong Recommendations. Especially as it is the Capital of the whole of this fertile & Extensive Country, but as to defence it is Extremely Deficient - Our late Success has given new spirits to the Troops & they are ready for my Enterprise - Should you continue the war, in consequence of the actual hostility recommended at Mangalore & ordered to be continued from Bombay, I shall be in such a position as to be able to advance into Mysore & if we are so fortunate as to secure a proper Lodgement & Magazine there - It will not be
 Ever

Easy for Leffie's Tail to drive us down the Cybault river
 to maintain his Power. But should an Accommodation
 take Place I presume your Lordship will wish that
 the ^{Army} may should remain as long as possible in the
 adjacent Districts so as to feed the Army without
 Expense to the Company, without incumbrance to the
~~Southern Province~~ & with a certain loss of Revenue
 to the Enemy - Whatever your Lordship's
 determinations may be, I shall stand time by in
 readiness to Execute them - within 12 hours after they
 are known to me - I have the honor to be with
 great attachment & Respect

Dear Sir I take the pleasure of acknowledging you that after the reduction of Pango's of the 23rd which you will have heard of before this, we must descend the river on the 22nd through the deep forest jungle a very tedious which I hope but on the way towards Colonel's plantation, an accident near this place on the 25th of the 23rd we descended on the N.W. side of the Port the same night the Port was ordered to be - 183
The Colonel was off to his Government on the 24th of the 23rd but his report was forwarded to you with a description of the place. It is difficult to see how we can get the money very great and not without the sending we are here in great difficulty and ready to receive every opportunity to push on further, there is a great want of money in the colony, but that we are full of confidence in a great want of money, if you had three million in 1840 in some without money. The Colonel is now making out an account of the fall of the place if requests you will get the money ready in

Sir, I have the honor to acknowledge your two letters from Pilliacatchingy of the 15th ult^o, as likewise one from your friend Desamp^{ts} the day you got possession of that fort, and as I am convinced the conquest will be attended with great advantage to the Interest of the Company & the Nation, and with inability ^{for} to prosecute your other salutary operations, accept of my warmest congratulations on the event. — The Army returned, & landed at this place yesterday, from before Mangalore; Tippoo Sahib having consented to our throwing in one Months supply of Provisions for the Garrison, it was not left to our option to act offensively, 'tho' in full force to have effected the most decisive measures. — There have of late been great dispositions amongst his Troops; many, & violent excursions, have been the consequence; Mahomet Ali, his Head General has been put to death in a very barbarous manner, and if I may presume to Judge from what is passed, I should give it as my opinion that Tippoo stands on very ticklish ground. —

As I am in hourly expectation of the arrival of General Macleod from Mangalore where he was to remain one day after the sailing of the fleet, I must decline for the present giving any opinion on the plan of cooperating with your Army, on the proposed operations of this, as I am convinced you will hear from General Macleod in the course of five days on both subjects. — I should suppose the Iron Guns you mention could be readily furnished from hence, as likewise a few other of the different articles you apply

for; as to either brought on
Carriage Blackbuck, there are
none here except a few lately
arrived from Bombay and
by no means equal to first.
This Army in Motion should
our operations be by land.

Should I be disappointed

flexible manner, in the course

Dated at Oudter one march west of Combitore the 22^d Dec^r 1783

My dear Settlement is gone to Palaget

Every Attention is paid & paying, to make proper notes
in the Country, its Route, Face, value & Appurtenances
in which will be included the Country of Cochin between
I believe hardly known to the English

Now with respect to the State & Sentiments of the
People of Mysore. It will afford your satisfaction & surprise
with disappointment to be informed by me in the most
positive & of you Please in the most formal manner that
the System of Operations proposed by you for restoring
the old Rajahs or Canary Interest in that Country - is
founded on a base, which could not fail to support
the most solid superstructure that could be erected on
it - I have had better means of Judging on this
Subject than any other Person because it was the belief
of the People of this Country that the Army under my
command was immediately about to penetrate into
Mysore / which in fact was true, had not the all
moved Interposition of Mr. Sadler checked me in
my

my Progress & then People from my Conduct to the Raja
of Travancore Cochin & Calcutta, together with my
Declarations respecting the old Raja of Mysore
were conceived that I had at least reestablished
the ancient Power of the Country & I may venture
from Every thing. What of Absolute Demonstration
to assert that on this Principle I should have
been able to smooth over much & many of the un-
avoidable Difficulties. Attending both on Intermission
in the Reduction of Mysore. Your Negotiations
in favor of the Mysore family were perfectly
known to many of the head People & had effectual
influence in convening them of the timidity of
the Permanency of those Revolutions which I
held forth.

The Raja's family is not only extant but
may be called forth to greater Purposes than
any other Political Machine that could be
used in the Cause of this ill fated war. & I
now declare to your Sincerity. What appears
to me of all misadventures the most likely not
only to produce success in the Intermission against
Mysore, but to Establish a true Popular &
Respectable

Respectable Grounds. The offensive operations of the English in this Country, which have hitherto been too often conducted on principles of a very different nation. But what avails it to say, what might have been or might be, when we know that it will not & cannot be?

Bombay
Gentlemen

I have ^{had} the honor to receive your letter of the 25th inst. expressing your concern that I had moved this Army within a short distance of Palicattheri, in consequence of Intelligence from the Factors at Tellicherry - You are pleased to add that this Proceeding will give cause to the Nabob to call our good faith in question, & that it is directly repugnant to formal Declarations made to him, by the Prudency of Madras. With respect to the merits of this Proceeding, as far as I am concerned I beg leave to inform you, that I have order from the P. Committee of Madras dated the 18th Aug^r directed me to avoid all hostility against the Bourgeois & Subjects of Tippoo Sultan, unless I should receive authentic information of hostility or ^{a breach} violation of the Capitulation having been committed by any of his Subjects, against any of the Fortresses, Subjects, or Possessions of the Company - I have since received from Messrs. Fort & Osborn at Tellicherry, not only authentic but official information of a breach of the Capitulation on the part of Tippoo Sultan against Mangalore. In Request that I would ~~in such~~ take a measure as to produce ^{disorder} ~~disorder~~

in favor of that Plan. Under these ~~Circumstances~~ I deemed it to be my Duty in obedience to my instructions immediately to act offensively. I therefore proceeded to Patankulery & indeed that Place. When I had arrived before the Fort. I was informed that Brigadier General Macleod was no longer with Tippoo, as had been officially reported - but I received letters from General Macleod himself informing me of the most unjustifiable breach of the Capitulation on the part of Tippoo. That he had done the Preparations making at Tellicherry to Delavie Mangalore. I proceeded from Palimachy to - Compton & from thence it was my intention to have prosecuted offensive operations & to have possessed myself of Chittur & of the pass of Geyers leading directly to Srirangapatnam but on the 18th Nov. I received a letter dated the 20th Nov. from the - Commissioner sent to deal with Tippoo ordering me to refrain ^{from} ~~immediately~~ hostilities & to retire within the time specified by the Company on the 26th Nov. - Some difficulty occurred respecting this movement but in consequence of a ~~second~~ ^{second} letter from the Jan - Comdr.

Gentlemen another after they had heard of the fall
of Patnatchery I have supplied the Army with
a supply of grain. I am able to make
as far as Serdighal & shall proceed towards that
place immediately. Still pursuing the Army
in readiness to move to Seringapatam if the
negotiation of Peace should not be brought
to an amicable termination.

I enclose ^{for} your information copy of my
letter of the 15th Nov^r addressed to the Lieut
Governor of Madras explaining my opinion

To John Sullivan Esq^r

This morning, early I saw
the Camp and to my surprise marching
not long after I had the pleasure of
seeing Col^l Fullarton with him I went
to the place which they had marked out
for encamping he told me that he had re-
ceived strict orders to quit Palisaberry).

Supplied to maintain the whole Army for
a year may more than that. I asked
him whether he was to march he replied
to Dindigul &c - Alas said, 'tis the peace
so certain that you quit all before
the negotiations is ended. The possession of
these two rich Countries would have kept
Tippoo in awe & would have enabled him to
give you reasonable terms. but you quit
the Ruins - and how will you manage that
beast - the Col.^d said - I could not help it -
I have written in strong terms to the Govern^{ment}.

That you have got a young Hebrew

Phoebe, gives me much joy - that Mrs Huppel & her family
like, along Phoebe are well - Encore plus - I'm that you
should allow Madame to play the Nurse, on expense - please
that you are an old womanly Nicol Nain & a voice. Tell
her so from me & add my instructions to Eugene, Louis, Maria
& every body else without way, against your plan & say let
Enter a Robert & his. Veto - How my friend will
me how all is going on with you. i.e. they very affectionately
of Mrs H. has got the letter of her best friendship what I
hear the complaints? - My letter is given you
will show you in full where we all are & how we
are moving - I begin to despair of seeing you at Gen-
drell which you promised. for there nothing further of you

approach - I hope will tell you Every thing in a way that I am
satisfied they joined in - I shall wait here tomorrow to see
our recovered steers & in hope of hearing of you or may be whether
you are moving forward - If I hear nothing on that head
I shall move off on the 8th with the troops for my
Station at Improvements by Wellen - by Madras which
there is a much easier road than by Faurincourt -

I enclose a letter for the Committee & for Lord
Macartney which I hope you will forward, Presto -
also mine to Sir John Burgoyne -

Ever most affly Yours

To Colonel Fullerton,
Commanding the Southern Army

Sir,

We have received the favor of your letter of the 28th ultimo from Madras, in which you inform us that you expect, that about this time your Army will arrive at Bangalore, where you hope to receive our directions with regard to the distribution of the Troops under your command. — In our letter of the 11th November last we gave you our orders upon that subject, which were, to keep them together as much as possible till we knew the issue of our Disputations. — By our last letters of the 2^d Inst^t the three Commissioners were within twenty miles of Seringapatam. They hoped very shortly to see Tippoo, but whether their interview was to be at that place, or at Mangalore was not then fixed. — They every moment expected a letter from Tippoo in answer to one which they had written to him on that subject. —

As the Three Presidencies now seem to have precisely the same ideas, and the Commissioners are furnished with full instructions, the business must be quickly determined. — We flatter ourselves and we expect that Peace will be the result, but as it is possible the contrary may happen, we desire that you will preserve the Army in such a state of preparation as to enable you to march to Seringapatam, or any other part of Tippoo's dominions in your Quarter, if it should be found necessary to renew hostilities. —

It makes us very happy to hear from Mr. Sullivan and Mr. Lowin, that they expected to be able to draw sufficient Supplies from the Southern

Southern Provinces to support you effectually -- The
distresses we labor under here, are scarcely to be described,
We have the honor to be,

Sir,

Saffordham, even down to the Coast
then I suppose you may find him
at any rate - My Dear Sir - I will answer
the strange proceedings of the Major of the 3^d & 4th tomorrow. I am
do it to day. but must refer to the letters which are not yet
come up in the bundle - I shall also write to Col. Hunt

on the subject of the Station for the troops with him —
I am sure that of all Systems for Troops that of London wants
is Militarily the best. & therefore I should certainly prefer
it, if it can be found without other inconveniences —

I mean to recommend Separation of Regts for that purpose
where of course Stuart would be Commander in Chief & would I
should happen to go there myself. of which I should
not have any intention. — If Separation can be got there
without Difficulty I think the best thing that Stuart
can do, will be to march thither with his force —

I shall not expect my order to Major Campbell to
join me, until I hear from you of Stuart — My
order on that subject was so vague & indefinitely
worded that it did not imply any sort of obedience
to it unless every Circumstance should in his judge-
ment be convenient. Of course you may suppose
that he will not move upon it. & still more likely
that I wrote it before I knew of his Conduct since
he landed — Ever yours W. M. Wallcut

Dear

I have received Letters from Mr Sullivan the Resident of the Southern Countries & from Mr Johnson his assistant at Singapore addressed to him, & stating that great irregularities & several acts of violence have been committed since your arrival at that place. I cannot suppose any officer in your situation & of your character, would either authorise or permit such outrages to happen under his command. It has been represented to me, & therefore I request that you will be pleased to inform me, what circumstances have occurred that could give rise to Mr Johnson's complaints, in which it is particularly ascertained that the Genting Arrack & the Culwall at Singapore had been maltreated & that the Arrack Godowns had been forced by some of the Prigis under your command. I shall be happy to know from you, that the accounts of these proceedings have been without foundation. However, sir to prevent any further complaints of a similar nature I herewith transmit you copy of my General Order of this date respecting the conduct of officers & men in Cantonments or in their Progress through the country, by which I have marked out the line of operations in a manner that I presume will not be mistaken by any officer or private of Cantonment or of a detachment

in its march. I cannot conclude without observing, that
your answer to Mr. Sullivan's very polite and attentive offer of
assistance to your Detachment, does not indicate any degree
of that spirit of agreement and co-operation, without which the
affairs of the Southern Countries, must have fallen into a
irretrievable confusion. but I have no doubt that your own
judgement will point out to you the impropriety of a contrary
mode of conduct, and induce you to prevent any imputation of
complacency. . . .

You will not march your Detachment
from Singapore until you shall hear further from me,
but in the event of your marching, there can not be any
occasion for a large Equipage, for at every Stage to be performed,
there is a Choultry & if you are directed by me to take a
different route, you will find sufficient accommodation
for your men as you advance. . . .

Commanding the Southern Army.

Sir

In our last we acknowledged the honor of your Letter of the 5th Dec^r and signified our entire approbation of your Plan of keeping the Army under your Command in such a State of Preparation as to enable you to march to Seringapatam or such other place in that quarter as might be judged eligible in case of the renewal of Hostilities. Altho we sincerely wish for Peace for Reasons which you must be well acquainted with yet there are appearances at present which indicate a possibility of Hostilities being renewed. The dispatches now forwarded to Tillyherry and Bombay thro' the Channel

Channel of Mr. Sullivan. who has directions
to communicate them to you will fully shew
you the state of our Affairs with regard to Supplies
as far as we can form our Judgement at this
Distance under defective Information. A very
few days will dissipate our uncertainty and
enable us to send you explicit Instructions
for your Conduct & the Army under your Command
We have every reliance that the same Spirit and
Activity which have all along so much distin-
guished you will continue. When called upon
to be satisfied with the same Success & Effect.

Lordship & the Warlike Board direct me to ¹⁷⁹⁸ ~~proceed~~ The
 Army in such a state of preparation, as may
 enable us to move to Chingapa-tam, or any
 other part of Tippoo's Dominions or their
 Quarter, in case it should be found necessary
 to renew hostility. It gives me great satis-
 faction to assure your My Lord & Gentlemen, that
 the resources of the Southern Countries are
 sufficient for this extensive Undertaking &
 with the Exertions of Mr. Luderan & Mr. Green.
 I have no doubt but they will be amply brought
 forth in support of so great a Public Purpose.

I flatter myself I need hardly -
 inform your Lordship & the Board of my zeal
 to carry all your views of service into Execution
 Since my return within the English Lines I have
 somewhat abated the preparations for a

believed in the success. But should events take a different
turn I trust that you will send the Southern Army
against the contest with any difficulties that may
occur. I have been very particularly indebted to the
abilities & exertions of Mr. Dwyer throughout the whole
course of our Southern operations & I trust much
to a continuation of these valuable qualities on
the present occasion. I shall immediately proceed
to make a tour through different parts of the country
in order to enforce Collections of Drapery & Marriage
Bills, &c. &c. &c. in Person. The progress of Dispar-
tion in every Department. All this shall be
conducted in a manner to avoid any public
suspicion of our intentions for I am confident
that Sincerity in the measures that may be
intended & rapidity in the execution of them are
the only means of ensuring success. Mr. Phipps
has already appropriated two thirds of the Revenue
of the District under his Management, to the
support of the Army. I am confident that the
Government will be prepared to meet any

I request that your Lordship

The accompanying letter addressed to
your Lordship & the Board, will explain my
intentions respecting the measures necessary to
enable this Army to move with effect in face
the

The Conduct of Telling Tacton, Should render a
period of hostility unavoidable. - I am happy
to say, that in either event of Peace or
war, the Southern Countries & The
Southern Forces, so far from adding to
your embarrassments, will afford -
considerable means of relief, from the
difficulties & expenses ~~unavoidably~~ incurred
by your Establishment in the Canaries.
Should we be ordered again to advance
into the Enemy's Dominions I presume
your Lordship will judge it advisable
to reinforce us with the Cavalry & to send
Capt^l Moorhouse to take Charge of our
Horse & Artillery, for Capt^l Farmer's
indisposition obliged him to leave the Army
at Combarres. A Company of European
Artillery along with Capt^l Moorhouse & the
remains of the 102nd, if convenient, could also
be usefully employed with us. Some how
eighteen pounders & a few traps & six pounders
might also be landed at Negapatam.

to replace those we may take to the field from
the different Expenditure & could easily be escorted
from Mysore, by the 98th which will
remain there, untill I shall have the
honour to hear further from your Lordship -
Beyond those particulars, I shall not look
to the Northward of the Coleroon, for any
assistance or supply, but shall confine
my Expectations of Resources, within the
limits of the Southern Provinces. For it is
my earnest desire that the existence of
the Army under my Command, may be
known to Government only, by its Operations
& that the pressure of Expence on Supporting
it, may again rest on the Enemy. I presume
your Lordship is convinced, that there never
was a Force in India, in proportion to Strength
& Numbers maintained on terms more easy
for the Public - Our Battalion has been almost
entirely defrayed by the Enemy. Palacavery
& its District alone, furnished us with grain
& other Necessaries to the Amount nearly of
£ 20,000 & several of the other Provinces
through

through which we passed, were not less formidable.
The expenditures of every Department, have been
Conducted, on principles of Great Restriction & a
concomitant, that a Commissioner could hardly be expected
on any of the Charges & Expenses it would appear
that a single March from this Point to Paddah
has cost the Company, larger Sum, than the
total expenses of this Army during a Circuit of 1300
miles & 8 months of constant Service in the field.
Under these circumstances My Lord, let me
representations which predominate every where,
should have exhibited our Measures & Arrangements
under a different Point of View. Our Successes
hitherto, have been chiefly owing to the Secrecy &
dispatch with which our Movements, were Con-
ducted to the extent of the range, in which I
was at liberty to act. If a further result that, in the
event of becoming more hostile, similar
consequences will result from similar Causes.
On the Supposition of Peace, it was my intention
to have requested your permission to have
abandoned myself from my present Command
in hopes of recovering by a Sea voyage, some
thing to the health. If I should find it
a totally necessary, to have proceeded to
Europe;

Europe; but while there is a symptom of peace,
no consideration shall be made from it.
Notes. I am in hopes of concluding with the
Turkish an arrangement for carrying grain
off by contract. I request that your Lordship
will furnish me with your sanction &
authority for this or any other measure
implying responsibility to my Post.

I have the honor to be with great
Respect.

Your Lordship's most obed^t & aff^l

shall proceed toward 1 pm. by Lawrence & S. Simmons
in order to meet you finally on your system of Proceedings -

you will find me a letter, coming out, which you will see
sent to Sandman in my other Box in the company of supplies
in cattle. Money or other means of motion —

As is the theegunpiter, I have no scope interfered with
them, nor molested them, farther than by explaining to their

With regard to the big Morawa. There are not indeed
many cattle in that Country, not perhaps belonging to the
Country, but just there is a large & strong herd
months. I think you might write some sort of
letter to the Rajah or to Col & Martiny directing a
collection of those cattle to be accounted for
in subsequent Pasheer. For this, perhaps I will
send Captain Everett with the Cavalry to Kanna
in his way to Coanore. If this mode of collecting
cattle there is consistent with the welfare of the
Country & with your edict, he will find instructions
there from you on the subject, with Martiny & will
escort the cattle to Coanore — If not,

 you will inform the Detach'd Command of
 this intention that the Officers may be prepared -

which should certainly be reinforced with uniforms
 but there has been a difficulty of obtaining even for

I am glad you have written to Campbell to find the
details of the 78th & 101st in their copies -

I shall very soon write him to move up with the 78th
but you are anxious to keep them in good quarters as long
as possible - All manner of preparations are going
forward in this quarter. Specie is a large amount
will be forthcoming from hence. I have written
to the Govt of Madras & a Cochin for gunners

necessary orders and help prompts. — That you will be

able to sweep 1, or 5000 cattle from Tonia after north
of the river. - Gunners will be much wanted. & I sincerely
should immediately get Copper hoops from Tongue for
at least 2000 powder barrels or rather for 3000 -
with wax cloth & Tannin sufficient - 600,000
balled Cartridges should be made up - I need not continue
to make a payment of three months, rather whole
yearly & to have at least three months more
pay in the Gambel at Norking. with these & other
similar arrangements it is not impossible but
the slowly moving wheel of Fortune may turn
on our favor. At all events we shall make a

Connexions, with the Government, with the Government, with
the Malabar People & more particularly by the Effects of
union to carry that system to its ultimate effect by a specific
system favor of the Mysore Family — In the present
State of things, while I command the Army, or in command
I shall ever maintain & act upon that principle, ^{as a principle} ~~as a principle~~
experienced its beneficial effects. & I shall, on a proper
occasion of writing a letter to the Board in detail upon the
benefits derivable from such a mode of public conduct.
Must our Hand it is our business to keep clear of any
specific engagements whatever — To confine ourselves to
the general Declaration of the Parliament & to stand
fast & strong as they rise — For you may rest
assured that any limited, ^{or regulated} specified course in the
of our Army advancing & depending upon the ^{circumstances} of
external occurrences will be liable to the utmost
Difficulties & Disappointments, & not in total Discomfiture.

Always ^{the} ~~the~~ getting the Carnatic Army in to a
smaller movement with us — is accurately sound Policy

If there is a sufficient propulsive principle in the
which I much doubt. But at any rate the tendency of
appearance of advancing on their part, will certainly carry
solutions apart. I secure to us all the Country in the
side of my part. I beg of you to inform Lord to find out the
whole Cavalry. or a part - It is of primary consequence -

And my friend I must answer your inquiries about
the evacuation of Palagatchery & Cochin. - Wheeler was
the person who took charge - At Comblaton He received orders
from me to return to the Army then at Vagney near Pudoor & to write
to Madras saying that he had returned from the Place & had left
it in good Condition - The Particulars of this evacuation of
Palagatchery are not yet accurately known to me. It is my
Writer's orders to him on that subject were. That as soon as the
Detachment of Stores should arrive from Cochin. He was to proceed with
his whole force by Volapour, & immediately to join me & that he
was to leave the Place, Stores & Camp in the best possible
Condition. Literally conforming to the instructions I had received
from the Commander in Chief. I had previously informed Madras of
this letter - With regard to the Garrison left at Palagatchery
Wheeler has not said a word to me on the subject -

It is extremely probable that the business of the Governor will
be misrepresented - For my intentions to support him were
avowed upon the principle of reciprocity in good deeds
& on the system of supporting the authors of the
Country, which is a favorite one with me - But it is im-
possible for any reasonable man to suppose that I would
connive at his taking possession of a Slave I was about to return
from - in the manner which I understand is currently reported
very tender the eye of the way officer to whom I had given
most ^{positive} instructions respecting the evacuation of the
Place - If this ^{is} true I say it in my best discretion
that I am much appalled the spirit of the people in taking
so decided a measure, provided it has been on act of decency
by over - in opposition to the Force of the law & without the
knowledge & consent of the whole - I had informed the ^{Gov}
- men - necessarily to my leaving I understood that I thought
it extremely probable we should be obliged to abandon our
Palatka they of that part of the Country & desired Councils
provide for his own security, opposing him if my work is
supported him - for which purpose I write strongly to the
People of Governor & to Gov. Macleod in his behalf

My Dear Colonel Coimbatore 14th Feb^y 1784

A letter to me from Colonel Campbell of the 6th Regt of Foot at Telicherry announces the surrender of Mangalore to Tippu - through absolute famine & deficiency of all necessary articles of subsistence for the Garrison - Tippu having succeeded in this his favorite object. will undoubtedly turn his thoughts immediately to our aid. but we must prevent the ill effects of his designs by speedy & well arranged operations towards the frontiers - for this I trust in you - Every thing on the subject of military stores & supplies should immediately be conveyed from Negapatam to Trichy & to Pondicherry provided you can find means to establish a magazine of grain there as at Coimbatore - Be so good as to send orders to

My L^d Gentlemen

I have the honor to inform your Lordships & the Hon^{ble} Board that I have this morn^g received a letter from the Com^{rs} of the "Feb^l Camp near Mangalore" It evidently bears the marks of hurry & confusion - Tippoo Sultan had intimated to them his intention of moving to Seringapatam with his army, & a part of his force was actually marching; but the Com^{rs} say they know not whether, as the Speculations have taken this turn & the army of Tippoo Sultan is in all probability already advancing towards this Quarter of his Dominions I shall conceive myself as indispensably bound to act as if war had actually recommenced until I shall have the honor of hearing from your Lordships & the Board

For this purpose letters shall be immediately dispatched to assemble the Southern Army on the boundaries of Tippoo territories I shall be anxious to have definitive instructions before I shall take any material movements or hostile measures upon myself, but as Mangalore has been reduced by him of which I have authentic information from

Col Campbell & as the season becomes in
form one, that they have settled nothing with
Tippoo, & as his Army is moving they know not
whither. I shall not lose any favourable oppor-
tunity that may occur for it is impossible
that the Army can remain stationary on the
boundaries without endangering our subsistence.

Paticacherry is still in the hands of
the Hyamooris who has a Lach of Lattun of
Maddy hidden in its District, and I have des-
patched a Detachment with an escort some days
ago to urge the Rajah of Sravastore to support
him with his Battalion & to furnish a supply
of stores with which I am inclined to hope that
D'Agnon will find means to throw himself into
Paticacherry. After that event I am inclined to
think we should not be alarmed to hear that Tippoo's
whole Army had marched against it. Every other
possible exertion shall be made & I proceed to
march to Madura, Tanjore, Srivastore, &
Cauver & hope very soon to inform you more fully.
& gentlemen that the Army is in view.

My Dear Colonel

I am favored with yours of the

28th - I lament that you should have had so much
trouble about the fanners & cannot help thinking
that the officer with you might have done more
his power to suppress them & not so far deviate from
my former practice as to suffer the troops to lose
any portion of their due as far as must depend on me.

At least I should have expected that the said officers
would not have been so premature as to establish
in defiance the grievances or ^{to be} actually thrown upon
the troops. before it was possible for me to hear of or
to remedy the evil - However my G.O. of the 27. inst
have cleared up this business as far as I am concerned.

And My Dear Colonel to present or much on her side
only should be on of complaint on the subject of
fanners. I wish you & P. & W. - Major Campbell
Captain Offord - with the G. M. G. L. Adj. Genl. &
& P. to go to set on a point to decide on the actual

rate of exchange of the paper Monies with the gold
of paying them to the different Divisions, according
to the report of that Board the troops shall be
paid after exchange ascertained - All expenses
therefore will be made up to the Army, so that
they will suffer no further inconvenience than
the ^{temporary} difference between the, even they may not
have received after balance of exchange later
added to them as soon as the board in question is
held and opportunity by setting - In the mean time
with your Division. Should you wish to bring
up the troops at the real & actual value of the
paper for some in your Camp - which will
save all disturbance as that is -

Expect the Division from Louisville in a
very few days - in their way is from your Division
Detach from Regt in line on this side of Sangre
Your Division from: Detach is already on its way
to Fort. so that a or 6 days more will bring
the Army into a state of Castles & suitable to
your operations - I am no further
across from any of the Divisions, and have
also

I have little doubt but that we shall be induced
to make another more methodical - I shall do all
in my power to put the Departments into a state of
preparation. Some things approaching more regularly
of such a kind as can be done with an economical
of deficiency of means - I am writing about
the state of this hospital which cannot be
left by the Army until a supply of grain is
laid down in place - I see no probability of
ballast from Calcutta - the direct route
a magazine for the land of the East India Company
understand you have about 8000 - the other
in another is about 2000 - the other is about
movement of the vessels which the hospital
small as it is - the arrival of the 8th Division
well as the 101st Infantry have been ordered
at of hospital - in Department will offer - the
clerk - for better use of the 101st I have been ordered
very large force of 1000 - in which I am not

and you will find such measures as you think
most proper as you may wish to be expedient. I
anticipate this circumstance. Prior to present my
delay that might occur if you were to be
your preparation. Many official forms in which
my signature or instructions might be necessary.

I beg that you will communicate the contents of these
letters to Captain Campbell. Every effort should be
made to see that the work is done

I have this moment the honor of

Yours. Dated yesterday - You mention that you have
ordered the issue & receipt of Tangier ^{for} ~~in~~ name at the
rate of 22 1/2 per M^{re} pagoda - This appears to me
very much under the rate at which I understood
the Army concerned itself entitled to receive them - Moreover
I cannot suppose that Officers in a Public letter to you
would have ventured to assert that the Tangier ^{from} ~~for~~ name
were not fairly payable to the Troop at £p. then 24 to
26 per M^{re} pagoda - Such is the assertion of the
Officers of the 15th Batta^y. I hope you will inform
them that the impropriety of the terms in which their
application are conceived, do not a little add to their demerit.

to compensate a mistake on their part. for such I
must suppose to be the case - otherwise you never
would have ordered the forms to be issued at ^{high} 200
a rate as 22 1/2 per 100 papers - At all events
I am rejoiced that the difference will be made
up to the Army according to the Report of a Board
of officers, stating what the forms should have
been delivered - & this Board under your Direction
will set the very first opportunity -

I proceed then day to day. I have been
with me to furnish the Bureau of paper

lot of papers - I shall return in two days -

My Dear H. J. Appleton

Carson March 22nd 84

Knowing as you do how some
difficult at present from different directions, and
consequences of dispatch your going coming & returning -
you must be reasonable enough to excuse my
late introduction as a correspondent of Julien & Howard
will in explanation of the above answer to the Journal
of the product to him this day will explain in
full all that I know & think on the subject of
the Commission - It appears to me, that
if the settlers have actually been directed
that is held by the Providence - The Sword cannot
it will not be the the - it all events & work

every possible. You & all members of House to
move forward for the 10th - for I prophesy a
Blast or Explosion - At the same time
you need surely be under no kind of apprehension
of Antislavery or Abolition - for the English
bishops are at present in a state of peace &
will not begin to act until some cause
of offence occurs on our part - I have sent
directions to Bishop to remain at Dorchester
till I shall hear further - for I could not feed
him here & I think we shall be safe here
until the Massacre of the Protestants is
improvement of the gibbet - I wrote to Mrs
H about Donnell's ~~agitation~~ ^{agitation} & the
many objections or comments of the people

It appears better that four Officers of a very different
 Construction should be there, but in the mean time
 I think this subject should be over & if there
 is not some nominal General still better the
 better. Cal Kelly I think you had
 would do. I only mention this subject now
 from my way of seeing it.

There is no hurry. As for Prodigy
 how do you - Our matters are so profuse in
 such a state of confusion & rather of uncertainty
 that we cannot wait the result of events before
 we take in any new measure. So will we
 most fully. I have now only time to tell you
 of a certain Sovereign called Henry Long who has
 adorned himself with the Diamonds of Royalty. The

The Banner of Majesty - The Palace of State -
The Umbrella of Dominion & the Naves of
oriental Monarchs - He applied to Macleod at
Dundee for a General Salute - but being
refused, His Majesty ^{proceeded to} salute himself with 21
guns from an old three pointer - but the said
General Macleod seized his Majesty's salute
& lodged it in the fort - His Majesty then
came here to see the burning fort made of
the Pulgar & do homage to him - He put me
word that he must visit me with his father & his
Queen & his Whore & his Plume & his
Umbrella & his Diamond - to all which I
answered by observing that instead of a Royal
Proclamation I would give him a sharp word coat of
instead of a peacock feather a gull from the
wing of an English bird - I put a sword over
him to bring him to his senses & beat him with a stick

My Dear SirYours of the 24th reached me last

night. I am much concerned to observe, that several objects have appeared to you, in an incorrect point of view — But I have little doubt that on a more attentive inspection, you will no longer expect them through a glass darkly. But in their proper aspect.

Immediately on receiving yours I read & considered the terms of the Orders which have given occasion to your misapprehensions — I have expressed my sentiments on that subject in my letter to Lord Alton, which will explain to you every thing that I can advance to prove how little I am inclined to commit any misstatement in any Department of public power & more particularly in any one, in which you are concerned.

As soon as you have read that letter I regret, that you
^{leaves} will forward it to his Lordship. My rule has at all times
been never to trouble L^d Macartney, or the Board on any
business of Detail or Discussion of Departments, because it
appears to me, that ^{from} all such references, the least inconve-
nience that can possibly arise, is an unpleasant correspon-
-dence on the part of those concerned, & as the part of him
however on this Board, a perusal of facts or incidents
in which they cannot be much interested - I need not
tell you that though these are the least evils arising from
them. yet the greater one might be of a con-
siderable magnitude - In this principle I think that you
should have quoted to L^d Macartney any vague & groundless
Paragraphs upon the Malabar Coast. who there is no
sort of communication with me or indeed with the People
here. can hardly appear to his Lordship a more valued
evidence, than any unfortunate Correspondent who might

KTH

idle enough to write upon the same subject from Malacca
or the Cape de Good Hope - You may be assured my dear
Sir, that no paper or personal operations of this ill enclosed
mass of individuals who have to invest, prevent & disempower
all men of all things, can ever gain any credit, to the
prejudice of the good understanding & friendship
between you & me, while we act, speak, & think
in the manner that I have always done - It is not
my practice, either in public or private capacity to
make any professions farther than the sentiment of
the moment dictates - Therefore while my public
conduct continues to support my public declaration
to hear looks may to your public merits. It cannot
be a letter from the Malabar Coast, nor the
misconstruction of a G.O. that will enmesh any
respectable man of any country or community in position -

With respect to the formal testimony & confidence that has
ever interested Liekeoosun - I will not do the probable man's the
importance to suppose that any circumstances of detail or official
communications could overtake them - My address in Palos was
to remain passive at Hutchinsons place all he should hear further
from me, I did not mention to you by that channel, nor did
I purposely not to Palos on anything of the Peace. Because the
letter from the Commissioner of Indian Affairs from
you? Macleod were so contradictory that I am in a state of suspense
which required some consideration - As soon as I had consi-
-dered & completed my letter for the Board. They were dispatched
to you & therefore that cause of your suppositions must appear
to you, to be without foundation - In answer to your claim of
an explanation, I most sincerely assure you, that whenever any
circumstances of your conduct gives rise to uneasiness. You will be
the first to know it from myself - when I tell you I am within
the slightest cause or occasion of uneasiness, or for as your conduct
by proceedings towards me are concerned. Truly I, you, who
should be thoroughly convinced of without my appearance -
When any impropriety happens in the mode of transactions or transactions
that belong to your Department I never think of stating them, much less
attributing them to you - - Why therefore will you give other people the
advantage over you by stating details on a subject, which I feel to be
well understandable - The fact that the conclusion must be that we are
even ⁱⁿ ^{the} ^{last} ^{fully} ^{known} ^{without} ^{or} ^{ten} -

Camp at Basoor,
March 26. 1784.

My Lord.

I have this moment received a letter from Mr Sullivan enclosing one from him to your Lordship dated 12 March on the subject of an order published by me to the Army respecting the free passage of Liquors & other necessary Articles for the use of the Officers of the Army through the Tanjore & Trichinopoly Countries. - The very handsome testimony that Sullivan has conveyed in that letter respecting the principle & manner of my Conduct towards the Civil Powers in this quarter. Since I have been honored with the Southern Command. renders it perhaps superfluous to intrude upon your Lordship's more important business with any explanation of this transaction - but as Sullivan seems to conceive that

that the Order in Question implies or may
be construed into an assumption of excecutive & Controlling authority in the Officer
Commanding to the Southward, even over
the internal Government of the Province
South of the Coleroon I shall take the
liberty of assuring Your Lordships that
no act or proceeding of mine, now has
or ever can justify such a Construction.

It is and has always been my inviolable
Rule to the Southward, never to
interfere directly or indirectly, in any
particular that did not immediately concern
the Army. The unreserved intimacy that
has always subsisted between Sullivan,
Hippisley & myself may perhaps under
their favorable testimony on this subject

brassed one - but in addition to theirs I believe the declarations of Every Other Gentleman in the Civil Service to the fourth Ward will go to prove the same assertion.

With regard to the orders alluded to I mentioned to Fulevan, when I was at Tanjore the General disaffected faction and in some degree Distress, occasioned to the Officers of the Army by the interruption of all Supplies from the Coast in consequence of the Exactions. Stoppages & Oppressions committed by the Suntham people in the different Districts the Officers felt this more severely as it was an innovation which had never been heard of before (as they all tell me) in this part of India - Fulevan very readily agreed to have the matter adjusted. My Dear Sir

Camp at Cairo -

27th March - 1984

Although I wrote four pages to you yesterday,
enclosed as many more to you, addressed to Lord Macartney -
yet on looking over your ^{late} letters & those of Misses Ley & Porcaine
many points, on which I have only had time to touch in the
most cursory manner & others on which I have omitted to touch
at all - This you will conceive to be very incidental to
any one who has to write & speak, & listen & think of all
manner of things combinations at the same instant & this has
daily occurred to me, since I came here for my business Leat has
been damaged & this one is a thoroughfare for the whole
human species - In the first place you have both come,
from what circumstance I know not that I have involved
you in the common trap of the Tanjore Despatch -
Now My Dear Sir you should recollect that in my letter to Mrs

Mrs. Hoppin's lay on which you have rested this construction of my
meaning by Disputations, I was simply stating a reason against the
propriety, or at least an objection in my mind, to making any
appointment whatever to the Command of Faneuil. This I
grounded on the Dissentions which had predominated there
but on these Disputations you will observe that I was making
no sort of Comment whatever excepting that they were &
certainly are pernicious to all concerned. & of this truth no Person
can I presume be more fully persuaded than yourself.

It is very true as Hoppinley tells me Peterfon has said - that I
was somewhat apprehensive of going to Faneuil. Notwithstanding
my Desire to see you & my other Friends there & notwithstanding
the very interesting business I had to transact with you there.

But I did feel certain sensations of alarm that the General
ill humor of the military in that quarter - my determination to
avoid every shadow of Disputation or Disputations with any of
God's Men. & at the same time the strong claims of private

Regard's & public commiseration ^{with you} operating on one side against my
 professional situation on the other, would produce something like
 the ~~strong~~ misconceptions that have actually taken place —
 of ^{your fault is} ~~fact~~ appears that at the same moment you & I ^{unhappily}
 conceived that I have related those lies by which we are
 bound, while the military with one voice declares that I am
 surrendering their interests & we even from motives of
 private trade & connexion — With respect to the ^{idea}
 which I gave out as the subject of passing 'achievements'
 in ~~not~~ ~~the~~ correct an abuse so severely felt by the
 country & committed by the military it never occurred
 to me that in a G.O. it would be proper or necessary
 to enter into legal explanations of the nature &
 expense of the ~~London~~ Government. For this reason
 I ~~not~~ ^{not} only as you say I did not mention either
 Hageb — President or, ^{enter} ~~enter~~ because it appeared

that I was simply detecting a grievance which remedied
among the military & by no means was either exposing
or interfering with the rights or powers of any
individual upon earth. I should not add
all officers wearing coats or other similar means
of convenience for troops under their command
to apply to the commanding officer of the post or
District. There is of course to follow the regular
& established mode of application prescribed on all
such occasions — I have told you of this
in the fullest manner that I can find out the
mode of making the military machine run smoothly
in your quarter, it will be the greatest satisfaction
that can occur to me, in as much as I know it will
lead to your own comfort & public good —

But this I faintly tell you I do not think will be
the case with any person whom I could appoint to

2nd sheet

to the Board, therefore I am desirous
that the Board should nominate to that command - ~~the~~
Cochrane is a proper person for this purpose & will
act as Deputy Master - which I much desire. Then
you could request that Board to appoint him, or
else you him only to apply for any other proper or
more proper Person to be that Master of the
Vessel, which the Board will comply with your request.

I have no doubt in my own mind that the situation
of Affairs should be made a situation eligible for States
with whom there could not be a probability of misunderstanding
- but as this does not appear to be an object
which he desires. You should take the steps that I
have pointed out - for it is Honour that of Captain
shall be responsible for the conduct of the party, but
we are not to be involved in false Discoveries
where there is more than any obstructed line can admit of.

Thompson, with much of his
opinion. But I decided to call it a case of "supra-
sensitization" about the future operation of the
War - in which it seems to proceed - it is this of all, was a
conception & seems to me the most imaginary -

For among possible plans & views of mine for carrying
on the War is in your possession or has passed through
your hands by the General Headquarters of
Camp have been organized with yourself. You
are I fear by the last letter to me on that subject
a confidential man up - went to the trouble which
I have mentioned in my last letter to the Committee
Now
I on what pretence ^{should} ~~should~~ have entered into a
discussion or consultation on a subject in which
we were both agreed at a moment when Winchell
was uncertain & when we had a hundred points of

immediate response to arrange? My Dear Sir I tell
 you again & again, that you please yourself, confident
 of success in the great public station which you
 fill, requires that you should banish every
 idea of alienation between you & me — I
 include success in this combination — because the
 strong bond public & private which have united us —
 cannot be broken nor appear to be broken nor
 cease without rendering unsuccessful in stage
 effect — all the operations of us both & of the
 Cause — There is a business about Mr
 Anderson going to Manchester which I see & hope
 by you can come & urged on without your parti-
 cipation. Because I did not mention it to you
 in ^{my} letter to you — I suppose I did not write to
 you from the date of that transaction till the
 possible of now, hoping events were done about of my

hand the funds - I had no earthly business with it, and
with such an address toward any sort of government, even
in the future, for all that he could consider is
known to God for the purpose of it is extreme of the
measure when he has his address, as likely to procure
money - He then told me he had written to you & that
on your fullest approbation & questions to him on
the point - but of this it is past for a suggestion
of mine to him on some subject in which I took
any other part but that of suggesting very readily
to cover in all civil propositions for collection
it will be impossible for me to act in connection
with without giving rise to misapprehension or
measures concerning your relations - It is much my
wish that you should not write to address even to
any other person within Civil Department to consult
so immediately with me, because you may be
assured that members of them will be very anxious

Hate to the Moon that is an interference in their
business & will involve me in Discrepancies which of
all others I wish most to avoid — Therefore I thought
in small matters of your Department ^{relates} ~~concern~~
to Andrew — The mentioned Discrepancy was as
willing to cooperate & support better interests, but they
no means willing to have any sort of responsibility
brought upon me farther than my simple appro-
bation & concurrence in measures may extend —
N.B. This country is not concerned, whereas Venezy ^{a party} ~~concerns~~ is
I wrote to Hopperley the ridiculous assumptions of
Venezy saying who ~~assumes~~ looks upon himself
the Infirmary only used by the Maleb — Hold
him that although the Company could & might
make him a Partner — or any other personment
able to prosper — yet it did not follow that
he therefore became a Maleb or perhaps any more

then Meer Sahib did, when he had the papers of
Dundgull — I kept a post chaise & spent over
him for several days — informing him that I was
only desirous to convince him of his civility & that
as soon as he had recollected himself I would send
him back to his own place with the same marks
of attention that I had ever shown him. That
you — Colonel Long & myself had all befriended
him & that if he behaved with propriety he had
every thing to hope & nothing to apprehend —
I have sent him back to Dundgull & also
thru' your agency, informing them to fulfill promptly
& properly the engagements they made with you
for Dundgull & for Doreporee Crook
travellers, but telling them that if they
failed in the performance of these engagements,

It would be absolutely necessary to make the
 Modeler responsible for them - which alarmed them
 much & they have promised shamelessly to do every
 thing according to their agreements - The
 Modeler was very urgent for me to give him
 power of control over them & these Duties -
 but as specific engagements had been made
 with them & as they have performed great part of
 their obligations I have failed only in the
 points which I mentioned to you & I suppose
 I did not think it would have been profitable
 in me to take such a step at present -
 I have therefore kept the Modeler here
 who complains of having nothing worth his
 while to do & threaten to return to Philadelphia
 but this I shall prevent -

Happily better than of the deplorable state of ^{the} Empire
Country of the Empire has been that of perfect ^{disorder}
confusion. I wish it was more exposed at present, for in that
event a remedy to the evil would be ready, & it would
be the same in the future as before of a continuation of
the War which appearance rather seems to say is about
End — As is any plan of particular operations or
Detail of ^{hostile} movements, of the War should recommence.
It is impossible at present to form any judicious opinion
subject — because of the arrival of troops — the state
of supplies — situation of the ^{Army} & of the Enemy
must make them alter every hour — I have
in all my letters & in all ~~my~~ the course of my words
& deeds ^{to} ~~to~~ you, incessantly marked your plans,
positions & advice. I have at all times laid mine
before you with the same confidence that they occupy
in my own breast — & to prove the effect of a regular formal
consultation with you & frequently on things so often canvassed

4th point¹ considered among us & so often agreed upon would
have been a contradiction all the while. of course a point
over which I am & are in error & I believe to be false. —

Another point on which I feel & always have done so
as on the one you consider is an inevitable consequence
of the ill understanding & as from some, in a letter, in-
-grate our conduct; relating to the manner of your
influence by saying — — — — — will labor & have labored
as much to credit as in our honor & I feel it is to give
in the most judicious manner that every possible order
at Execution & military regulation for the case turn of
any a time that you would point out, should be most
willingly complied with & honored by me. There is a great
my private tendency, as you know, to the side of you, not as
a, but a lot of station & respect. — — — — —
therefore remaining any circumstances of that kind that requires

arend, it is with you is most out of the mode of attraction,
I think I have fully explained my Creed & you are to be
convinced from it. ~~I am~~ I am sure so often attempted
in writing, and 13, after I do not know if there
or, my feelings & others are such, at least I am sure
or I am sure they express of our and for them to be my
part which you never have had before will be
good ground to doubt. I will be explicit in all
points. when I differ I will tell you, when I
agree it will often happen that I will follow it, as granted
in a matter of Course - for you may easily see
that there is an historical in, as it is, of my
writing 14, pages in "in daily occurrences in this man, then
more" when, I have in Course been between you & me
- 13. then could you find some for each dissertation.

This is the 2nd of your volume, of the 1st of the 1st volume

Camp at Caros
 My Dear Mr. Peppery ~~at~~ 2nd April 84
 Morning

I wrote to you yesterday

I have no objection or note regarding
 the 22nd 14th to Jan. 1st & to leaving it there
 the time out I have it in my power to make
 any suitable arrangement. Neither can I
 have any objection to Lathrop coming to
 command there when Mr. Doty with his 14th
 & I need not tell you that the interest Mr.
 Peppery & you express in his health makes
 me desirous at all events to serve him by

with the Dear Board respecting the nomination
of a Command to Tampere, which I have fully
explained to you & I believe in my last
letter. I should not have thought it
anxious to send to appoint a Man of
Cochran's Description specifically to
that Command. & exclusive of his Hall &
& at the same time to Mr H. The state
of affairs looked so hostile, that I could
not possibly resolve to send the 22nd
to you. As things now are situated
provided there is no explosion in Europe
I see nothing to prevent the 22nd from
going to Tampere in which Capt Cochran

will Command whatever he shall & means
there, or while a senior officer shall
come here - but they say I do
not think that you yourself would concern
him to be the pro re nata, I therefore
let him understand that it is only a
temporary situation. —

I enclose
a letter to Johnson in answer to his
enquiry of M's Extract - nothing
further need in this quarter —

Believe me my friend that I am
will not release the Prisoners nor give
his strong belief, in the Court. Therefore
or all. I send in the Third Enclosure

with the Plans I have respecting the nomination
of a Command to Tampere, which I have fully
explained to you & Talbot in my last
letter. I should not have thought it
convenient to send to Pitt Rivers a Man of
Cochranes Description specifically to
that Command exclusive of his Staff &
& of the lower Force to other Pt. The state
of affairs looked so bad, that I could
not possibly resolve to send the 22nd
to you. As things now are, I should
provided there is no explosion in Europe
I see nothing to prevent the 22nd from
going to Tampere in which Capt Cochran

will command while his Mother & remains
 there, or until a senior officer shall
 arrive there - but My Friend I do
 not think that you yourself would command
 him to be the Home-pro re nata, therefore
 let him understand that it is only a
 temporary situation. — I enclose
 a letter to Johnson in answer to his
 enclosing D.M.'s Extract - Nothing
 further new in this quarter —
 Believe me my friend that I hope
 will not repeat the errors nor general
 his strong belief, in the Coroner therefore
 as all events send on the North to the South

Trinidad, 5th April - 1884

5th April 1884
Mr. David Stephenson

I enclose you some letters for Barron-

-well in which various other matters are expounded by me
-early upon business of professional business - when you have read
the deal of despair in the following - I consider it as the last
episode of the North British - Lord Monmouth being
no longer in an official employment by Trinidad being without
the pale of his authority - do not write to either of them nor
to Macdonald in this respect. But if you think that it is
to be done, you can be of any use if you will. I shall not
delay to inform them if I understand the situation well
and sail for some weeks longer - The news of last night
from one of the released prisoners dated Melbourne and the
Goffe has detained about 50 European prisoners, 150,000

European, greater & 1500. & 1000. he. edes, no measured small
numbers of land & many officers - some of whom have
been circumcised - The letter also confirms the fact of
person Isaac Matthews, as listed by Madras & others
that Brundley - Matthews's brother, & many others
died notoriously by the same means - This leaves me
some small doubts respecting the evidence that the board
will admit of, & one somewhat surprised that the arrival of the
Prisoner at Pollack is not yet notified to me -

I go tomorrow to A. to see the Prisoner - I intended
to go to Madras for a few days but am rather
ill, & I believe delay this excursion - I shall return -

That yesterday on receipt from Col. Bruce of my
note that the 10,000 in the camp are still suffering
should on the 1st. of June & urging the necessity of
affording immediate relief. I decided that for some
thousand have been collected by Andrews et al.

Moreover, I might remedy the evil if that money were
applied to the said purpose - I would have been
willing that means or other to be adopted without delay
has for application of these - but as Andrew neither
can nor expect to spare any money without which we
order on his subject. I write, I believe would send them
now not in doubt as on that point but order for money
seems now almost done in his custom -

I have attended to the points of your letter respecting the
Majors complaints. The statement of 10,000 by
Piney, Towbridge & the members of Helicon from the
Abbot inquiries informed them - With respect to the
first, or complaints of the Majors - I Macartney sent me
a copy of them as far as the Prelates are concerned &
they shall be answered in full by me in a very few
days - I cannot. As to the sale of 10,000, stated
to Sir Joseph as being for me, I must tell you that
Sir Joseph has no more to do with it than you have

This Dubach Thoma. agreed to take charge of the cattle that
remained on land. when I marched to beddalore. and had
having just ordered me to collect cattle & in writing
he had no occasion for them. The whole amount
is accurately looked & reported to the Hon. Secy.
in my possession - I fear the Govt may have forgotten
of it when they sleep - Dubach charged Thoma with
the same when he sold of these cattle, but afterwards
gave him a discharge & I am sure you have every
thing settled, what else - I am sure of it, I am
embarrassed - It appears to me that it is a foundation -

for if he is ordered to make a trust requiring, he will
become Criminal after, but I am sure of it.

Therefore the writing should not be delayed as there
is a lot for on the 11th of May are dated as September, but
we have a copy of the charges & they shall be answered

Tomorrow to hear whether this meeting of Tappan
meeting, as per Douglas will lead to the same result.

Mrs. H. H. H. I should have mentioned that has happened
to the same Meltonna - I must be better of what else there
is a lot of them. I am sure of it, I am sure of it.

Col. T. S. Foster to Mr. J. M. Sullivan Esq.

April 16 in the Morning Uxbridge Mass.
 I enclose a letter for the Board which I re-
 quest you to read & for^{ward} as well as its inclosure - Col. Foster is just arrived with
 his force... We have some thought of moving to Shute
 runbo, which is one march nearer Lindisfield & in
 several respects more convenient than this place
 Every thing on our part is now performed, but I
 perceive very little tendency on the other part to dis-
 pose what is encumbering in the Behander - As soon
 as I receive Hawes's reply answer to J. Macaulay's
 letter & to mine I shall send it to you to be submi-
 ted to the Presidency. I am anxious to know what steps
 Sir John's people have taken or are taking for the release
 of the prisoners & for the evacuation of the Cannata
 I apprehend there will be much delay & falseness
 alias failure in the release of the prisoners, & I
 am extremely desirous to know how far the Board
 wish me to consider any such conduct as sufficient
 grounds for offensive alias coercive measures in the
 Quarter.

It is the more necessary for me to hear this
 circumstance elucidated and answered in the Committee
 letter of the 29th March to me a reference to agent

which altho' concerned to the words, *prudence & address*,
appear to evince remembrance more than the mere implicit
compliance with the Instructions I have received to
withdraw from the countries of *Canar* *Aracancunet*, &
Sanatoram & give me your thoughts fully on these
particulars.

Col Fullerton to the Madras Committee
Agonyotta 2^d April 1788

I had the honor of addressing the Right
Honble the President on the 24th March in answer to his
Letter of the 10th inst. & in returning the inclosed the
Society for the immediate Execution of the Instructions
it contained.

On the 1st of April I was honored with
your Letter of the 29th together with a letter from the Right
Honble the President to a Gentleman by which I have per-
ceived to have by a Gentleman of a Negatives House & at
the same time heard the Gentleman in question express
his intention to have that he might be conveyed to the
Behader. My letter to a Gentleman by on this Subject, of
which I inclose a Copy will explain the mode in which
I have acted with respect to him. He has constantly
been attended by his own family & a Physician & has
been allowed a considerable sum of money for his own
services as well as every convenience that I could procure.

for him.

I have also to inform your Lordships of the Board, that Col Stuart with the Queen under his command has retired from the Fort of District of Ca-
 roo to Castellan & Col Ker is now at St. Andrews
 within 6. miles of this place on his march hither &
 has left the Fort of District of District of District
 to be protected by the Forces of District of District
 of which I have before me previously informed.

Every part of the Treaty is now put
 before our eyes. My Lord & Gentlemen as far as
 respects the Treaty. South of the Ocean & the River,
 so that in any emergency it can be ascertained
 with the utmost safety & expedition in the Castellan
 where our Magazines of Stores & Ammunition are established.
 It is to me that the better spirit of my Instructions
 from your Lordships of the Board as well as from
 the same Conference. And of the Treaty shall be made
 an object of ultimate consequence. The selection of
 such measures & the adherence to such a mode of con-
 duct as may be most effectually conducive to the
 performance of those engagements by which the British
 Government is bound to your Majesty & to the English Nation.

It would become me no longer to
 express delays & uncertainty & other such

your share that relate specially to the execution of your
Instructions & Intentions - & find the Sushman very
generally, entertained of the Sincerity of Sephor Suthan
& your most flattering reference to my endeavours on
the frequent occasion induces me to suggest that the whole
weight of performance being now with Sephor Suthan
& the Officers of that performance depending on
the Satisfaction of all the numerous Indians from
the English & the Satisfaction of the Territories of the
Company on or before that a very short period will
enable your Lordship by the Board to ascertain how far
it may be necessary to enforce the Accomplishment
of these engagements & to direct in which manner
the Operations of this Army may be best employed
in so great a public purpose.

Col. Fullerton Sec. & Co., Beg. - 8th April 1762 Aspricott's

I write you this letter to inform you
that in consequence of Orders from the Government
of Madras, I have withdrawn all the Troops from
the Forts & Districts of Pooné & Marwar & Garware.
You may therefore now more freely be taken notice
of those places where you please & you will observe
that I have not suffered any sort of molestation
or violence to be committed against the subjects

or persons of the Inhabitants in these countries along
with this I lay of time I desire the Buchswanna or
the Master of the ship to carry to you those he may be for-
warded to Livingstonia. I shall be happy to hear
that the English prisoners have been treated, with the
same care & attention that I have bestowed on him.

In the course of one Year this Army has taken me
less than 10000 of Howe's people prisoners, all of whom
except the Buchswanna I released as soon as they were
taken. Every kind of trade between the English & Sep-
tuo Sultans is now performed as far as relates to
the Coast South of Ceylon, I shall expect to have an
answer from you, that all the English prisoners are
released & that the Goods of Septuo Sultans are un-
drawn from the Possessions of the English.

Col. Fullerton to a Care, Beg

I send by my friend, Mahomed Hadjee Jernardda
of Marse to deliver to you a letter from the High Court
the Gov^r of Madras, & to receive your answer

Sir George 13 April 1781.

Madras Com^{rs} to Col Sullivan.

We have had the honor to receive your letter of the 29th March & the Resident of Tanjore has transmitted to us a copy of your letter to him of the 1st Inst.

As soon as the Districts of Canara, Damanorum & Nonaconchy are evacuated the Southern Army may be cantoned as you propose & as near Trichinopoly. But you will have such a one in the Fort & District of Trichinopoly as may be sufficient to resist any attack that may be made upon them until Sir John Sullivan shall have fulfilled the Article of the Treaty that relates to the release & delivery of the prisoners of which number will be sent you from hence. A considerable number of the prisoners have already joined at Coimbatore & we hope the whole will be at Trichinopoly about a fortnight. Immediately after the treaty shall have been finally fulfilled the heavy artillery may be sent into Trichinopoly & the main body of the British remain cantoned there, but Batta^y & all other Allowances must wait of the Batta^y, &c. & passage be discharged relatively only a letter.

number of each to be always held in readiness for any sudden emergency that may require the sending a Body of Troops into the field a considerable part of the Arsenal must also be discharged & we shall shortly take into consideration what part of the Troops can be reduced, on this head we wish to know your Sentiments & request therefore that you will state to us the Force you think sufficient to protect the Country included in your Command specifying the number of Troops you would allow to each District respectively.

We shall send you our instructions on this Subject with as little delay as possible having the most perfect reliance that the same public Spirit which has uniformly distinguished your Conduct in the field will be exerted in co-operating with us in our endeavours to reduce all unnecessary Expenses & to establish that rigid Economy without which it will be impossible to achieve the Campaign. Sufficient.

We have truly accounts here of the escape

My Dear Hippiusley —

I am in wonder & amazement

that on this 20th day of April nothing official should
be known of the Incarcerated — If every other
circumstance did not proclaim Peace, I should
still be an unbeliever — The silence from
Madras on this subject is so slow. You & me
know more than we need — at least I sometimes
persuade myself that uncertainty is the cause of it —
But this again is rebutted by the retreat of the
Majors from Arcotore &c &c

Now as to the business of Inspector of Stores -
You are quite our my friend - for Allemond
is not Inspector of Stores. nor any thing in that
shape. but by the recommendation of various
people who wish him well, he has been
appointed him. Conductor of Stores & he now
acts in that capacity. we tell the Comptroller
of the Stores that he no more -

- As for the Mr W. Barker of whom Barker
wrote to me - He was a very deserving man
indeed & had gained the good opinion of
me so much that I meant to recommend
him to the Board for a Commission in the
Army. But unfortunately he died at
Buenos Aires

which stopped his promotion. — You must suppose
that I could perceive any influence that would
have a palpable tendency to bring, & to maintain
you in more ways than one — ~~that fact~~
be aware that Inspector means Conduct —

However I was obliged to at least to write
in the good the advantage that would accrue
to the Service if there were an ^{artillery}
officer appointed to survey & report the
state of things in the different barracks —
That I have not done, but under certain
limitations I should suppose I might
do considerable good without ever
write me how this appears to you —

I rejoice that there are two ships for Europe & that
they will not be full for some short time - If the
thermometer ever means to get below 90 - I will
certainly construct a packet - & I wish to know
immediately what occurs before venturing yourself
or Sullivan that I can know who it is, & send any
particular parcels or objects for me all the faster -
I am & Port Los Angeles parcels I am at the same

If Sullivan means to return to Europe in June
another I presume it is worth a view to be taken
in some superior situation. If this or all events I
think should be a theme - The Govt of Maryland
was in his contemplation & I am persuaded with
a proper train well laid, it would succeed -
The men who were bred at I understand in
wonderfully improper respects - write me with

Orinide -

As regards the letter of the 17th of March 1852.
I am in a hurry to write

I now set down to you an account of our action
if from after accounts you should find it curious I
hope length of time & my not having noted my journal
will excuse it.

In the night of the 17th the lot received
information that a larger body than usual of the En-
emies Cavalry had crossed the river with an intention
to raid the Grain, as you know they used frequently to do.
Detached Sampson with his Cavalry, to drive them away,
but from his intelligence suspecting more, he rode out
to a rising ground from whence he could command a
view of the river, & there he beheld at a little distance
the enemies line with their Elephants &c. crossing.
He rode back to Camp directly got the line under arms
Gave an order to Sampson to go immediately who
hurried on by the wisdom & impetuosity of youth, had pursued
the party too far & with the utmost difficulty effected
his retreat but not without a considerable loss
of men & horses - At day now knowing that Sipsoo was
then in view with the best part of his army, we
had either the cruel alternative of death or surrender
before our eyes which is to be preferred, any man
who has had the misfortune to fall into the hands
of such a Barbarian will not hesitate to pronounce

When the Col joined the line he detached 4 companies of Sappers to the Village in the rear where all his provisions were & in charge of the evacuation of his people strongly posted & entrenched. Meanwhile our hostile force secretly occupied the Valley in the rear of the Village before they were saluted from a battery of Artillery from the Village they were going to take possession of the treacherous ascents have delivered us up in the night to their hands of the treacherous Sappers their betrayal without a grain of rice, escorted by all the Sanyasies & coolies, surrounded by the enemy on all sides who from above twenty pieces of artillery continue firing & as you may imagine to your self our situation about 10 o'clock the front Sapper was called in & went to the rear where the enemy seems to claim to make their chief efforts their casualties made several changes there but were ineffective with great loss the enemy took possession of the ground where the Sappers were posted & from the guns fired all day upon the 10th Wall without wounding a single man they also took possession of the bank on the left of our Camp from whence they fired from four 24^{lb} & almost levelled the top with their shot the 10th Wall suffered considerably, there are the principal occurrences during the first day, in which our loss was trifling, you may judge of the fire when from the 4 Guns on the left I stand

(the French doctor who afterwards attended us, in Sept. five, camp who had been forced to attend those guns, as well as a pair of cows for provisions.)

Our fate was now fixed for certain, what remained with the Col. to determine was, whether to save the lives of his army by surrendering, but by this means Septoe would have been able to detach largely & would most probably have cut off the detachments dispersed about the country of which troops the Col. knew the Garrison of Sangre stood in the utmost need, or by running the risk of sacrificing his own detachments take up the Enemy's attention so as to prevent their detaching to cut off these small parties as he knew they would be obliged to hush their whole force together to attack him. He generously determined the latter & immediately gave orders to these parties to retreat to Sangre as fast as possible the cover qualified his choice all these parties we have reason to believe escaped. About 10 AM night we marched & intended to have reached the heights of Vignacourt before morning, here we thought it possible to hold out till night & then by a forced march reach Sivallere & from thence to Septentum. Before this was unperceivable by evening proper was placed to catch our party that affords them a prospect of safety, but here our own design was frustrated by the villainous Hincarrati.

who led us intirely out of the road over bad dy fields,
J. Sullas one of the latter stopped our Buggy & hows,
The Enemy who never had an idea that the Col would
take them ready prepared to capture him if it was possible
in the short before they knew of our March, had it not
been for these 100000 balls we certainly should have reach-
ed the pagoda The Village being a strong one might have
have been defended, but how to subvert there was the heavy
we had not one Grain of Rice with us, had not nothing
for 24 hours, if we could have been procured by run-
ning the Village & taking every thing we could get from
the inhabitant we must have succoured, but to return
to my story;— About 4 o'clock in the After. the Enemy
vanguard infantry came up & held a very heavy fire
on the 10th "Batt," which brought up the rear 1000. The
war was the first that fell he was a fine young fellow &
much regretted he was, the only one of our party killed
the Enemy held up a very severe fire from Great Guns
& small arms upon our line, but without doing much
execution as our ^{fronting} parties held them at a respectable dis-
-tance of the Count y being a very close one that horse
could not add, About 11 we reached a Phenthu on one
side of which was a Village with a very thick top, here
the Enemy had purchased an an barcade of about 500
horse, not above 500 yds from our line, the change

160

stood our fire but suddenly with the increase of
 confusion & fear on their part, they attempted to retreat
 and by this time the Sakers were prepared to receive
 them, & gave them such a warm discharge for their
 few or more escaped, had this charge the desired effect of
 throwing us in irrecoverable confusion there were immen-
 sible bodies of Cavalry round us ready to take advan-
 tage of us, & it is a certain fact that Sephor had given
 orders to a Massacre every European. This charge however
 was fatal to us in the end as it was impossible to bring
 the Sakers into order again, they continued ^{fighting} ~~fighting~~ as long
 as they had a cartridge our Gun ammunition by this
 time was nearly exhausted, our confusion became ter-
 rible, but the Enemy from what they had suffered in the
 late charge did not seem inclined to attempt another
 the Sakers now were no longer under any Subordination
 to their Officers, they ran here & there looking for their wives
 & Children vainly thinking to protect them from the fury
 of the Enemy who were now gathering round us in vast
 numbers with an intention to make another Charge &
 some of the Officers referred to the Col. that it was in
 vain to hold our army longer, he determined to ask for
 Parole, which was granted, & the Sakers ordered to give
 over firing, we were now all separated by the confusion

crowd I was close to the Col. when the Flag was held out
& determined to keep close by him, said to be come up to
him & tell ^{him} that all our lives should be safe & that none of
our baggage could be saved from the Gen. plunder. I could be
reassured, for this purpose some letters were carried the same
day in vain few things were saved & those few things sent
to him. I received an ugly wound in my neck which prevented
my keeping up with the Col. and intended by him was, I
know not I escaped being plundered. About the hour of
twelve we were carried before Sifitoo Sab who bore his
success like a man accustomed to victory nothing haughty or
superior about him, he seemed rather to commiserate ~~our~~
our misfortune & told us we should have every assistance
attainable at twelve we were carried to a tree where there was water
brought to us from his own kitchen, very good of the kind
but I believe few had any hearts to eat. In the evening we
were carried to the Village of Gabon at eight the French
surgeon came to attend us, with no other instrument than
a curved bloody knife, with this he made whiffs to expose
the balls, out of a few Gentlemen's wounds. He passed the
night in a miserable situation upon straw - the next morning
Sifitoo sent his compliments to the Col. desired to
know how he was, sent him a present of some silver

took two razor blades, of fine cloth for cloths, the same number of pieces of coarse to make bandages for the wounded Gentlemen. I 30th I told that whatever he wanted should be given him for his ability for it. In short his behaviour to us was such as gave us an idea of his character which from bad experience we have since discovered to be a very false one.

My Lord

The accompanying letter from Col. Fullerton for the Select Committee is of too much importance to be detained for any thing I can have to offer upon a subject which he has treated with so much information & ability & in so much extent. The general outline of my ideas went to the Col. in the 29th April. and your Lordship will find by the enclosed copy of what I then wrote that our opinions meet in this as they have done in all other points of service. -

If we differ into the mode of establishing order amongst the Polygars, we see alike the necessity that some effectual measures should be taken & pursued for that purpose. and I am persuaded no man will be more disposed than Colonel Fullerton to Recommend that this should be attempted by lenity & encouragement when he shall know that the Disturbances & Disorders amongst the Polygars & their frequent disobedience to Government have proceeded as much from the oppressions & exactions they have suffered as from the radical vices of their dependant Constitution. That the mode of Administration hitherto pursued with our northern Zemindars and now introducing amongst the Polygars of the South, promises to remove the one and correct the other, and that the Exam-

ple

ple of good faith on the part of Government towards them is alone wanting to render them not only the best subjects but a real aid to Government, instead of being what they have hitherto proved a burthen in time of peace & a dangerous enemy in the event of war. -

If I were to offer any opinion upon the general arrangement & distribution of the Troops proposed by Col: Fitchett it should be that instead of putting garrisons in Ramnad, Chelaid & Triplicore, a small cantonment should be formed at or near Mellore, which is the seat of the Collectors & Confines ~~of~~ the Provinces of Tinnevely, Madurai, Trichinopoly, & Maravar. The Troops proposed for the garrisons with the addition of some Europeans might compose this cantonment, & we might even find in this disposition of them a good excuse for destroying their nests, for making roads in every direction as is so particularly recommended by Col: Fitchett. The Pioneer & Mascarons of the principal cantonment might be made to aid in this service & all the established followers of the Army might be employed in it which by reducing the consumption of provisions in the frontier country of Trichinopoly, would enable Government to establish more ample magazines there. -

I have the honor to be with great Respect

My Lord. Your Lordships most obedient
& Humble Servant. -

in possibly for wanted Corner of your
Orders to Colonel Stuart so that he will
Anticipate sooner than they could have done
at this Distance. I have also a Letter
from Mr. Dwyer informing me, that there
is much & other necessary, but also in the
handed for them at Breckinridge. But I am
sorry that it will be impossible to deliver
it at this time, more than three days.

My Dear Hopper Esq

I enclose a letter for Mlesow. In

answer to his Observations to you on the Sheegunja facti—

I hope he will perceive by mine. that I was simply urging
the performance of the agreement stated & proposed three months
ago—, Indeed I did conceive that the Sheegunja were ^{by their delay} postponing
both with him & me, but I should not have written to them
on this subject had not Mr Musdeen stimulated me by a
Correspondence by telling me that he had not performed
one half of his engagement— In consequence of which I gave them
a narrative in full— With regard to receiving the amount
of the obligation—as in part of fresh cash. I can give no
answer, as it is no business of mine on what account
the cash are given, provided I do not scratch my name to the
note. I sit. H. L. P. ... & now will adjust the matter

Some may or others do as to secure the species for the
exigencies of the time. - If it is brought to the account of the
current fresh water. It is in other words, burning the obligation
into which the Murders voluntarily entered with us, it is
reprobating my own arrangement with them in the most
decided manner. which I certainly shall not subscribe
to, being perfectly satisfied that it is an arrangement
which will stand the test - & so let it rest -

I send you a volume for the book some days ago
in answer to the request of the lady, which has been placed
in my possession - but I hope their amusement is spent
for I have no desire to carry on offensive operations with
either of them - This letter from Mary by order of the
Board - dated 16th May directing me to keep possession of
Sandwich. I think will lead to all humor with the Providence.
All the troops will remain immediately from Sandwich
District (except the Company) & will be stationed within
the limits of the collection

will something further that occurs - The appearance
in perfect good humor & quietude. - There, when every
man's brother, covers the earliest symptoms of any, arising
dissatisfaction among them by a gift of good words

Letter this morning from Henry, assures me that the
people there are returned further, & expect to meet each
their duty but those little factors there - However we
shall see - - I beg you will explain to Wilson
how little I had any the most distant thoughts of going
home was met by my answer, to the door which is obviously
in the direct line of all that was previously arranged &
should be supported - I do not feel upon any grounds
justification, forgoes so readily the approbation of their joint
ultimately to the discharge of the power that I am to the
that I come to be a mode of nothing, I should like to be
parties, but on account of David & Deborah Nequagans.

Johnston family are all recovered - John is better &
much better - the visiting the Europeans is an excellent
arrangement for him while it lasts which I ^{have done} shall do all
I can to render of as great advantage to him as possible -

Mr. and Mrs. [unclear] that no ship will leave
Madagascar sooner than the end of June -
that he is going to Mangel & in his return hopes to get
off before our return would -

Dear my Dear friend - I will find you a
letter for the [unclear] [unclear] [unclear] [unclear]
[unclear] a worst day - My best respects to
Madame [unclear] [unclear] [unclear] [unclear]

if you have not sent me [unclear] [unclear] [unclear] [unclear]
I will send [unclear] [unclear] [unclear] [unclear] [unclear] [unclear]

Madras. May 28.th - 1784.

My Lord & Gentlemen.

I had the honor to address your Lordship and the Board, on the 14th May. In that letter I endeavoured to explain every material Circumstance that then occurred respecting the Troops in this Quarter - I have since, been honored with your very acceptable intimation of the reduction of the ^{Misissin} ~~Misissin~~ ^{Misissin} ~~Misissin~~ at Arnee. In consequence of which Colonel Clapham has received Orders to return to the Southward with his Detachment. Agreeably to the latitude that your Lordship & the Board were pleased to allow me, I am happy My Lord & Gentlemen to assure you, that no indication of dissatisfaction or disturbance whatever has appeared among any of the Corps, composing the South^{ern} Army. but on the contrary they have on this, as on every former occasion since they have acted as an Army, behaved in the most meritorious manner, & I am hopefull that the two months pay now issuing to them

them will for the present relieve their distresses. — In obedience to your Orders respecting the Persons sent from Madras to recruit in this Country, without the Sanction of Government, I have used every means to discover and secure the offenders, but as yet have not had time to know the result of my Endeavors. There is a report that the French are also employing emissaries for the same purpose in the Tanjore Country. I have sent proper persons in disguise to enlist with them in order of possible to ascertain the fact. —

I am informed by Captain Macleod Commanding Dindigul, that several parties of Tippoo Sultans horse have approached the Fort: but they were desired by Captain Macleod to remove from the district, otherwise he should be under the necessity of informing his request. I have directed that officer to throw as much grain as he can procure into the Place & in order to relieve the district, already much exhausted. I have withdrawn from thence all the Troops that were stationed there, excepting the 6.th Battalion & some Companies
of

of Trichinopoly Independants doing duty in the Garrison.
The 101.st & 102.^d Regts are Stationed at Secunder Malley
with two Battalions of Sepoys - Two other Corps will
proceed to Calipetty, One to Mellore & three to the
Tinnevely Country, in order to promote the Collections
& to lessen the demands of Grain in this District, where
it is Essential to have a Considerable Supply in store
lest any disturbance with the Behaders Troops relative
to Bindigull should Oblige the Army or a Division of it
to assemble here & to move from hence to that Place. -
It is my earnest Endeavour to fulfill your Wishes, res-
pecting the reduction of Army expenditures. As soon as
as your Lordship & the Board have determined on any
permanent Arrangement for the Southern Troops, so
that they may be distributed to fixed Stations, the Maps
of field allowances & the Expences attending the public
Departments may immediately Cease without any Cause
of Representation as well as a reduction of the Mogulley
Horse, whose demands are enormous. but it is the
opinion of the Captains Commanding Sepoy Corps, that
An

for the present, it would be extremely dangerous to
winter and the issuing of Grain to the Black Troops--
Those Stationed in the district of Trichinopoly are almost
entirely subsisted from Tanjore & were it not for the ex-
ortions of Mr Sullivan & Mr Sheppieley, in providing
for them, we should be under the necessity of dispensing
them--The Bullocks which Mr Pegby had provided for
the Conveyance of three lacks of Seers of Grain, when
the Army was preparing to move into the Enemy's
Country, have proved of great utility in this business--

I have the Honor to be with great
Respect.

My Lord & Gentlemen

Your most Obedt. & very faithfull
Servant.

My Dear Misses

I beg of you to read & forward the
 enclosed for Lord Macartney by the Poist. - There
 is only that - the 2nd that you will find worth
 reading - I received yours last night.
 The subject of my present paper Major & Vincent.
 I am outlonged to day by hard & early labor -
 But tomorrow I shall sign my agreement in
 several of your propositions & may remark on
 several others which are not so mathematical -
 I will send the 2nd paper to Tongue with great

pleasure, or soon as I can possibly get free, I may attend
to the security of Andover. Mr. H. has been told
had better remain with you, for for a very
few days or on foot it is my purpose to send her.

Yours to him - Good night
